Hazardous Weather

Hazardous Weather

Moist unstable air will flow into New Mexico and west Texas while an upper disturbance approaches from the the west. This weather pattern will bring widespread showers and thunderstorms with a few areas of heavy rainfall. Flash flooding may occur over isolated locations. High temperatures will be from the mid 80s to lower 90s lowlands with upper 60s to upper 70s mountains.

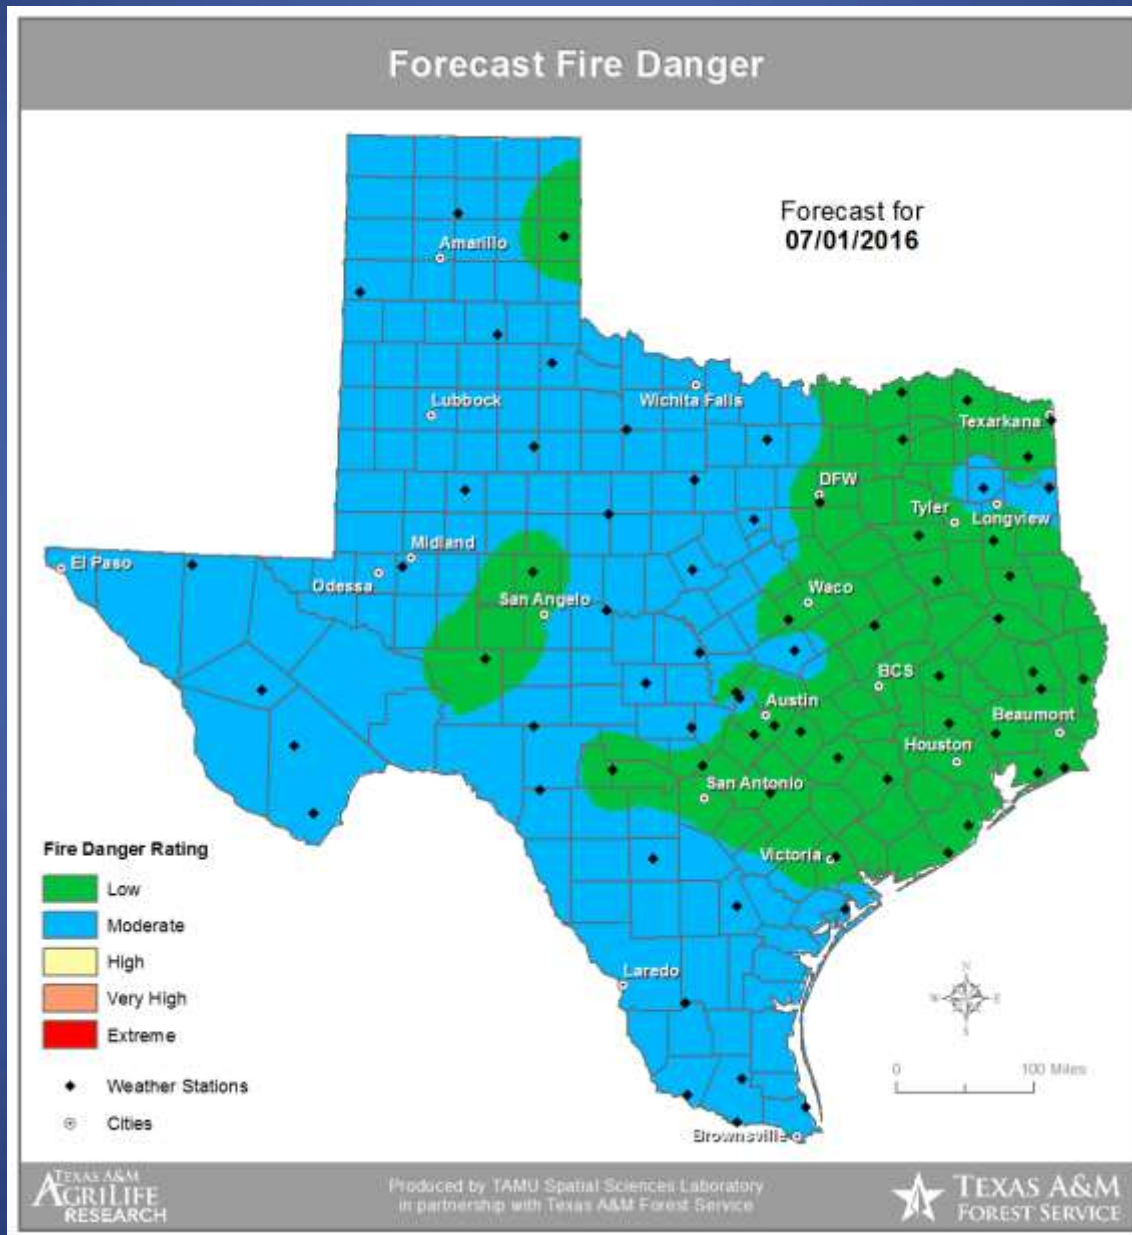

Above normal high temperatures are expected today with readings in the mid to upper 90s across the region. A few locations in the far SW Rio Grande Plains could reach 100 degrees. Heat index values will range from 102-107 today. Please use extra caution if outdoors.
